Jumbo Transport is expanding - new office in Norway

Since the purchase and consolidation wave once again hit the Scandinavian transport market in the spring of 2008, we decided strategically to establish our own organization both in Sweden and Norway.

We will no longer be dependent on decisions taken by other companies, but decide the development ourselves. We are convinced that if we shall be able to meet the requirement of our customers, we must establish ourselves with our own offices and staff.

Jumbo Transport, Sweden opened in July and now our Norwegian office is ready and fully operational.

The office details as follows:

Jumbo Transport AS

Risløkkveien 2
Økern Næringspark
N-0580 Oslo

Tlf.: +47 23 37 32 00
Fax: +47 23 37 32 01
oslo@jumbotransport.no

We have employed Per Auestad as director. Per has 30 years experience within international transport and freight forwarding and lastest held a position as Managing Director of Bjarne Bakkeng in Oslo.

Furthermore we have employed Morten Karlsen as of 1st November 2008. Morten has also many years experience within the transport industry and comes from a position as forwarder with Nor-Cargo.

Jumbo Transport AS will concentrate on groupage services within Western and Eastern Europe, in cooperation with agents and existing Jumbo Transport offices. Furthermore we also offer relocation of machinery and entire plants, both in Norway and the rest of Europe. Sea- and Airfreight will also be done in cooperation with existing Jumbo Transport Agents.

We are both proud and excited about our new office and staff, which we are sure will offer the same excellent service as Jumbo customers expect and appreciate.

Best regards
Jumbo Transport as

Ole Holbæk
