POLISH ROAD TAX / "via Toll" from 01.07.2011.

As the next EU country Poland is going to impose road tax from 01.07.2011.

Due to this, all trucks with a permitted total weight of 3,5 tons and more has to pay a differentiated kilometer road tax by using various categories of roads, regardless if the trucks are loaded or empty. Besides the road tax is graduated according to the vehicle emission category (Euronorm)..

With below table, we have calculated the cost consequences by transport of cargo to/from Poland as well for transports in transit via Poland to/from Ukraine, Lithuania, Belarussia etc.

As a consequence of this, we are unfortunately forced to introduce a "polish road tax fee" to cover those external and unavoidable costs. This in accordance with below mentioned table.

PL ZIP codes	Minimum Per shipment	MAUT per 100 kg	Maximum per shipment (full-load)
00-09	3,5	0,4	64
10-19	3,5	0,4	60
20-29	3,5	0,4	61
30-39	3,5	0,4	66
40-49	3,5	0,4	58
50-59	3,5	0,2	27
60-69	3,5	0,2	27
70-79	3,5	0,2	26
80-89	3,5	0,2	27
90-99	3,5	0,4	65
PL-transit	3,5	0,4	70

Calculation basis: EUR per 100 kg or per shipment / 1 cbm = 333 kg / 1 ldm =1850 kg

We hope for your understanding.

For any further information, please contact us.

Med venlig hilsen

Jumbo Transport Eastern Europe
